

# OPITO TFOET

## Tropical Further Offshore Emergency Training

**COMMONLY KNOWN AS:** TFOET

**DURATION:** 1 day

**PRICE:** \$900 per person

**DESIGNED FOR:** This course is designed to meet the further onshore safety and emergency response training and assessment requirements for personnel working in the offshore oil and gas industry in a tropical (warm water\*) environment.

**PRE-REQUISITES:** Trainees need to have current OPITO certification in TBOSIET, TFOET, BOSIET or FOET. Prior OPITO certification must remain current otherwise trainees will have to complete the TBOSIET. Trainees will be required to produce evidence of prior competence in the appropriate course under the OPITO training standard.

**DESCRIPTION:** This competency unit consists of three parts; safety and the environment, helicopter safety and escape, fire fighting and self-rescue.

**CONTENT:** It is essential that competence be demonstrated in all parts of the course:

### Safety and the Environment

- Offshore hazards, risk levels and means of mitigation
- Updates on environmental awareness
- Updates on offshore safety regulations.

### Helicopter Safety and Escape

- Donning an aviation lifejacket
- Actions in preparation for a helicopter ditching
- Actions following a controlled ditching on water
- Actions following an aircraft capsized in water.

### Fire fighting and Self Rescue

- Use of hand held portable fire extinguishers
- Use of a small bore fire hose reel and / or a fire blanket
- Appropriate self-rescue techniques using a smoke hood and an escape type breathing apparatus.

**ASSESSMENT:** Trainees will be assessed against the learning outcomes using direct observation and/or oral/written questions, and practical exercises as appropriate.

**CERTIFICATION:** On successful completion trainees will be issued with a Statement of Attainment Tropical Further Offshore Emergency Training (TFOET), and a personalised TFOET identity card.

**ELEMENTS OF COMPETENCY:** In addition to the OPITO certification, this course also meets the requirements for the following National Units of Competency from the Chemical, Hydrocarbons & Oil Refining Training Package (PMA02) and the Asset Maintenance Training Package (PRM04). Successful completion of these Units of Competency will also be displayed on the certificate:

- PMAOHS214A Undertake Helicopter Safety and Escape
- PRMPFES05B Use Portable Fire Fighting Equipment

**DELIVERY METHOD:** 3 hours of classroom theory PowerPoint presentations, including audio-visual material, practical desktop activities and discussion.  
5 hours of practical components using specialised equipment in a range of work simulated scenarios.

**MEDICAL CLEARANCE REQUIRED:** Trainees will be required to supply a completed medical clearance on their first day of training. This medical clearance must have been completed by a medical practitioner, within three months of the start of the course.

**VALIDITY:** This course is valid for four years from the date of training. However, your specific company may require this course to be completed ever two years.
