

**DURATION:** 3 days

**PRICE:** \$1700 (GST free) per person

**GROUP SIZE:** Minimum 6, maximum 12

**DESIGNED FOR:** Personnel who are new to the oil and gas industry and are keen to work offshore on the drill floor.

**PRE-REQUISITES:** ERGT requires that trainees have current OPITO TBOSIET certification, elements of which include:

- Introduction to living and working offshore
- Safety induction
- Emergency response and firefighting
- Sea survival
- Helicopter safety and escape

Trainees unable to meet the course pre-requisite will be required to undertake an additional Offshore Induction Training (half day) prior to enrolling in the Roustabout Induction Training course.

**DESCRIPTION:** This course is designed for personnel who are new to the work environment of a drilling rig, and have limited knowledge of the terminology, equipment and processes used offshore. Trainees will participate in pre-tour meetings, identify hazards, follow workplace safety procedures during simulated work scenarios and follow emergency response procedures.

## **CONTENT:**

The course equips the trainee to be familiar and understand:

- Safety procedures
- Hazard identification
- Manual handling
- Handling tubulars / cargo
- Height safety
- Working in a team
- Hoisting and slinging
- Radio communications

All training provided will be in accordance with the relevant Nationally endorsed Training Packages:

*Drilling Training Package 03*

- DRTOG01B - Assist with the health and safety of the working environment
- DRTOG03B - Assist in establishing and maintaining effective working relationships
- DRTOG04B - Carry out equipment and basic rig maintenance

*Metalliferous Mining Training Package MNM05*

- MNMC205A – Conduct local risk assessment

**ASSESSMENT:** Trainees will be assessed against the learning outcomes (as listed in the DRT03 and MNM05 Training Packages) using direct observation; oral and/or written questions; use of a workbook and practical exercises where appropriate

**CERTIFICATION:** Upon successful completion of these Units of Competency, trainees will be issued with a Statement of Attainment in the DRT03 Drilling Training Package and MNM05 Metalliferous Mining Training Package.

**DELIVERY METHOD:** All training will be conducted onshore by experienced personnel currently working within industry. 8 hours of theory components will be classroom based using audio-visual material, practical desktop activities and discussion.

16 hours of practical activities will involve equipment familiarisation/ work scenarios on the fully operational training rig.

**VENUE:** ERGT, Jandakot and drill rig (local).

**WHAT TO BRING:** Safety boots.
