# **BOSIET - BASIC SAFETY INDUCTION & EMERGENCY TRAINING**

ERGT Australia's OPITO BOSIET course content covers offshore-specific safety induction, helicopter safety and escape, sea survival and fire fighting and self-rescue.

This course is essential for personnel who are new to the offshore oil and gas industry. The BOSIET includes essential content specific to travel over cold water, and is suitable for those travelling over both cold and warm water environments.

<b>Locations</b>	Perth, Darwin & Melbourne
<b>Duration</b>	2 Days
<b>Outcomes</b>	Record of Achievement in:
<i>Please see Certifications section for detail</i>	OPITO approved Basic Offshore Safety Induction and Emergency Training (BOSIET) with Emergency Breathing System (EBS) 5700

## **Authority / Regulator**

OPITO is the global, not-for-profit, skills body for the energy industry.

## **Learning Outcomes**

The expected learning outcomes for this course are:

- Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks.
- Identify key offshore related safety regulations and explain the basic safety management concepts
- Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching
- Demonstrate sea survival and first aid techniques
- Demonstrate that they can effectively use basic firefighting equipment, and practise self-rescue techniques in low visibility situations, to include smoke filled areas.

## **Additional Requirements**

A current offshore or industry equivalent medical is required for this course. Please see the Medical Form document on [ergt.com.au](http://ergt.com.au) for a list of accepted medical clearances.

## **Structure & Assessment**

This course is delivered through classroom presentations, group discussion and practical components within a simulated workplace environment. Trainees are required to demonstrate their competence through written assessment and practical exercises.

## **Certification**

On successful completion trainees will be issued with a:

Record of Achievement in OPITO approved Basic Offshore Safety Induction and Emergency Training (BOSIET) with Emergency Breathing System (EBS) 5700

Personalised BOSIET identity card

## **Revalidation**

The OPITO BOSIET is valid for 4 years from the date of training. To remain current trainees are required to complete either a Further Offshore Emergency Training or Tropical Further Offshore Emergency Training course every 4 years.
